

BAP Series Panel Antenna

This Panel antenna is designed for wireless access system in 2.4 GHz, Wireless LAN, 2.4GHz ISM band, IEEE 802.11b, 802.11g, WiFi, and Wireless Bridges. The features of high gain and narrow beamwidth are suitable for point to point wireless access communication. Water proof and robust design are ideal for harsh environmental application.

Part No.	BAP2400-27S-16N
Frequency Range	2400MHz~2483MHz
Bandwidth	83 MHz
Gain	16dBi
Vertical Beamwidth	27°
Horizontal Beamwidth	27°
F/B ratio	≥25 dB
Impedance	50Ω
VSWR	≤1.5:1
Maximum Power	50 W
Connector	N-Female
Polarization	Vertical
Dimensions	280×265×90mm
Weight	1Kg
