

MA Series Mobile Antenna

MA2400-83V-7S22 is designed for the 2.4GHz spread spectrum communication for auto mobile terminal. Special stainless steel spring is used in antenna body for best physical flexibility.

Part No.	MA 2400-83V-7S22
Frequency Range	2400MHz~2483MHz
Bandwidth	83 MHz
Gain	7dBi
Impedance	50Ω
VSWR	≤1.5:1
Maximum Power	50 W
Connector	SMA-Male Or Customization
Polarization	Vertical
Dimensions	220m
Weight	200g
Remark	With a Φ90mm Small base Mount

Eyecom company policy is one of continuing improvement, therefore we reserve the right to change this specification without notice.
