

Base Station Interface Unit (BTSI)

PRODUCT DESCRIPTION

The Base Station Interface Unit (BTSI) provides the interface between the remote control antenna and the base station control system

ELECTRICAL SPECIFICATIONS

| | |
|-----------------------------------|--------------------------------|
| Interface input | RS 232 & USB |
| Interface output | RS 485 |
| Output connection | 8 pin DIN female (IEC 60130-9) |
| Power supply connector | DC jack 3.5A max. |
| Power supply connector | +24Volts 1A max |
| Lightning protection incorporated | |

MECHANICAL SPECIFICATIONS

| | |
|-----------------------|----------------------|
| Dimensions H x W x D | 90 x 80 x 50mm |
| Weight | 400g |
| Operating temperature | Min -40°C Max +60 °C |

FEATURES

| | |
|--------------|--|
| Materials: | Outer casing corrosion resistant aluminium. |
| Connections: | Remote control electrical downtilt connections are in accordance with the AISG standards |
| Finish: | Grey powdercoat |
